Waistcoat Stitch

The waistcoat stitch is what creates a great, dense fabric for this project.

A waistcoat stitch is worked identically to a single crochet, except you go **through** the post of the next single crochet, under the horizontal bar and between the legs

Attach safety eyes. Embroider around eyes with **Color B** with a chain stitch. Make a second pass around the bottom of the eyes and fill in any space between the eyes.

Using **Color C**, embroider with a chain stitch around the outside of the whites of the eyes, going around the bottom half a second time.

With **Color C**, chain 8, cut tail and pull through to secure. If you want to add a keyring, do it now and use the tails to attach the loop to the top of the squid and hide ends inside.

Stuff squid lightly.

Re-attach **Color A**, slip stitch across row 18 holding both sides together to close the bottom. Cut tail and pull through to secure.
