Rnd 4: sl st around to finish edge

Cut long tail that we will use with yarn needle to stitch wings to body as desired.

## Lanyard

Make a slip knot with a long tail and ch to desired length. I recommend around 120 st, but you could make a very short chain to hook to keychain or a very long one for a crossbody style.

Flip the Base inside out and use the tails of the lanyard to slip stitch down the inside for a very secure connection.
