## Assembly

Sew eyes low on the head

Sew floating ball to the top of the head tightly so it stays up and insert stick if you want to secure it. I would leave out the stick if this is being made for a child.

Sew arms to body at the very top almost parallel to each other.

Sew wings to the body starting 4 rows down from the top.

Sew legs almost directly across from each other so they sit on the outside of the arms.

If you want, you can tack the yellow parts of the arms together if you want them to stay together permanently with a couple stitches.
